Chef Assistant

La Trattoria-Swanage

First 3-4 months I started as a kitchen porter and working lunch time as well, helping with the food preparation for the morning.

After that I started learning the salad section and cold starters and also helping with the pizza bench when needed.

Second year I was responsible with salad/cold starters and pizza bench.

By the end of 3rd year I could basically do the whole menu apart from ordering ingredients for the next day as it is not done by me but by the head chef.

The menu is almost entirely focused on Italian cuisine.
